Item #11 on the agenda was the district update. The Manager relayed to the board that all mosquito surveillance operations have begun. Weekly mosquito trapping started the first week in May and will continue to the end of October. Mosquito control operations will begin around the dates of the local school graduations and during the County Fair, end of May through the first couple of weeks in June. The district's regular mosquito spraying program begins the last week in June and continues through the first week in November. The district will once again conduct a bottle bioassay for testing chemical resistance in the local mosquito population. Also, a live mosquito cage trial is set for mid-August as well. The Manager stated there is an abundance of water available to both the ag and wetland areas of the district and predicted a normal to above normal year for mosquito production.

With no further business, the board meeting was closed at 12:55 pm.
